

GOAL/FIELD INSPECTION CRITERIA

The completion of this form is a requirement of both the youth and adult insurance programs which must be strictly enforced by the elected officers of each club/league.

Take the time to provide a safe playing environment. A little time now can prevent a tragedy. We recommend you appoint a Safety Committee to provide continuous awareness within your club/league.

NOTE: INSPECTIONS MUST BE COMPLETED PRIOR TO BEGINNING EACH SEASONAL YEAR.

ASSOCIATION: _____

NAME & ADDRESS OF FIELDS: _____

GOALS

Please inspect all goal posts to insure their safety, including but not limited to, pressing and shaking each post. Additionally, please report specifically on the following:

Yes No

- | | | | |
|-------|-------|----|---|
| _____ | _____ | a. | All open hooks used to attach nets have been removed. |
| _____ | _____ | b. | There are rusted or weak places in the posts. |
| _____ | _____ | c. | There are jagged or sharp points or edges on the posts. |

For posts in the ground:

- | | | | | |
|-------|-------|----|----|--|
| _____ | _____ | d. | 1. | Posts are rusted and weakened at ground level or immediately below ground level. |
| _____ | _____ | | 2. | Posts are securely in the ground. |
| _____ | _____ | | 3. | Posts appear to be approximately vertical and are not leaning significantly. |

e. For posts not in the ground:

- | | | | | |
|-------|-------|--|----|--|
| _____ | _____ | | 1. | Goal tips easily when weight is applied to the top or horizontal bar. |
| _____ | _____ | | 2. | Goal tips or topples easily when rear supporting part of the goal is raised. |
| _____ | _____ | | 3. | The goal is securely anchored (that is, the goal will not tip or topple easily when anchored)? <i>Please remember when a goal requires an anchor to be <u>stable</u> the anchor can be removed easily. Therefore, any goal that is not stable shall be removed and dismantled.</i> |

Please inspect all connections or intersections of pipe and report specifically on the following:

Yes No

- ___ ___ a. In or around connections or intersections of pipe, there are deteriorations or weakened areas caused by rust and/or fatigue.
- ___ ___ b. Each connection or intersection of pipe will properly support the weight of the pipes they support.

Please inspect all supporting braces and report specifically on the following:

Yes No

- ___ ___ a. There are rusted or weak places in the braces.
- ___ ___ b. There are jagged or sharp points or edges on the braces.
- ___ ___ c. The supporting braces are rusted or weakened at ground level or immediately below ground level.

FIELDS

Please inspect all fields to insure the safety of players, coaches and spectators. Additionally, please report specifically on the following:

Yes No

- ___ ___ a. There are exposed sprinkler heads.
- ___ ___ b. All buried water access lines are securely and safely covered.
- ___ ___ c. All garbage cans, bleachers, portable toilets, and all fixed items are positioned at a safe distance from all fields.
- ___ ___ d. All storage sheds, boxes and chemicals are safely secured and pose no danger to unsupervised children.

I understand that one of the provisions of the LSA insurance liability policy requires that all portable and/or moveable goals should be inspected prior to any scheduled activity and should be securely anchored to prevent them from tipping over.

Remember, the completion of this form is a requirement of both the youth and adult insurance program which must be strictly enforced by the elected officers of each club/league.
